

HENRICH

INDUSTRIAL RUBBER BANDS

2014 Product Catalog and Price Guide

Why Choose Henrich?

We strive to understand the specific needs of our customers and then work to meet those needs with high quality products, delivered on time, and priced to give our customers a competitive advantage in their industry.

The High Cost of Cheap Rubber Bands

Buying the cheapest rubber bands may make the Purchasing Department happy, but low quality rubber bands can really hurt your bottom line. Rubber bands that snap or pop off your products during shipping, leave behind a residue, or bleed color onto your wood can significantly reduce your profit margin.

Bundling bands created with our special Henrich formula will not bleed color, won't leave a residue, and are strong enough to provide a cushioned ride for bundles of lumber during shipping.

For more than 15 years, companies nationwide have been using Henrich **hinge bumpers** to protect pre-hung wooden doors from hinge damage during shipping.

The costs of buying Henrich Industrial Rubber Bands is low when you think about all of the profit you may lose out on with damaged products if you don't choose Henrich!

ANCHOR

\$6.75

per pound for black

Ideal Solution
for
**Nurseries, Greenhouses,
Floral Designers, Vineyards,
& Landscapers**

Gentle on Plants

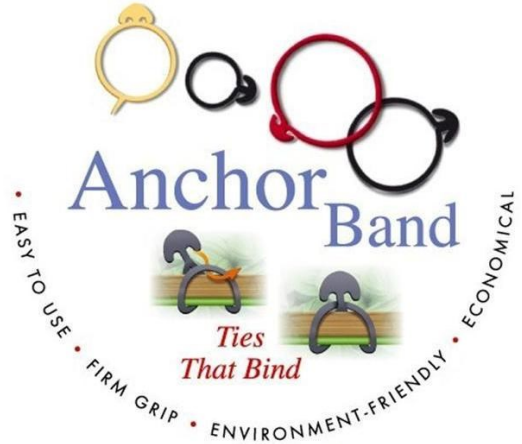

As the plants or saplings grow, our anchor bands will expand with them without needing adjusting. This saves you time and labor costs.

Easy to Use

Unlike traditional tie methods, there are no frustrating and time consuming knots to tie. Quick and easy application with no tools needed.

Environmentally Friendly

These innovative, biodegradable rubber ties are designed to “breakdown” after 12 to 18 months, depending on the amount of UV exposure.

For More than Just Plants

Companies use them to

- ✓ tag & label products
- ✓ secure cables and cords
- ✓ bundle items

Our customers come from a wide range of industries....

Electronic Companies

Dry Cleaners

Public Relations Firms

...just to name a few
